HOW IT WORKS

Since the best things in life are the simple things, this savings challenge was designed with simplicity in mind. No sense in overcomplicating it --- life is complicated enough as it is!

On the next page you'll find a tracking worksheet with each week clearly outlined. Each and every week, both of you will put \$10 into a savings jar, envelope, coffee can, or savings account (or under your mattress, whatever works for you).

Working together, you'll accumulate \$20 each week. After six short months you'll have saved \$520. And if you stick it out for the whole year? *You'll save over \$1,000!*

Every week when you put your \$10 into the money pot, you'll put a check mark or an "X" in your column. Ladies, you'll use the "Her" column and men, you'll use the "His" column to mark off your contributions each week.

See? Easy, right?

Like I said - there's no sense in making things more complicated than they need to be. But - please! - don't discount the effectiveness of this savings plan just because it seems "too easy" or "too good to be true." I assure you it works.

I encourage you to print out this sheet and post it on your refrigerator or in another central location that you're sure to see every day to keep yourselves accountable and on-track.

Let's get started!
